

Welcome to LaytonDental.

We're glad you're here, and we're confident that our solutions to dental health will keep your smile healthy and bright!

At LaytonDental, we'll help you by satisfying your needs for:

- ◆ **The Safest Mercury Removal.**
LaytonDental is the premier office in San Diego for safe mercury removal.
- ◆ **Healthy Dental Restorations**
that are natural looking and biocompatible.
- ◆ **An Excellent Teeth Cleaning Program**
that includes oral microscopic analysis and the best in oral hygiene management and education.

Dr. Grant Layton has practiced dentistry since 1978. His education at UCSF Dental School gave him the foundation in the most critical areas of dental medicine. Grant fabricates his own restorations to give a natural excellent fitting solution. He has studied, worked and innovated procedures in his own practice that give results that just can't be matched.

Dr. Layton's dedication to mercury free dentistry has grown in parallel with his knowledge of the toxic effects of mercury. Grant now is a leader in the industry, with recognition from the International Academy of Oral Medicine and Toxicology. He is also the President of the Environmental Dental Association. His expertise has been influential in the political arena of water fluoridation as well.

Dr. Layton considers LaytonDental the culmination of his experience and talents, and looks forward to advancing his practice concepts throughout the United States. Dr. Grant Layton lives in Carlsbad California with his wife and family.

The most advanced, environmentally sound dentistry available.

LaytonDental, Natural Dental Solutions

The Dental Health Lifestyle

At **LaytonDental**, we work to give you the smile you dream of. Realizing your dreams requires both immediate solutions, and longer-range solutions. At **LaytonDental** we

work closely with our patients to create healthy, beautiful teeth through our excellent, natural looking restoration solutions, and then maintain your oral health and beautiful smile with management and education.

LaytonDental is a dental practice dedicated to the best possible, most up to date methods of dentistry, including metal-free-solutions. Our solutions create beautiful, natural looking, strong teeth designed to enhance any smile. Our solutions are proven long lasting, and we make every effort to provide a bio-compatible outcome. We pride ourselves on what we call 'environmental' dentistry.

Our name and brand represent a philosophy that has driven our founder, Grant Layton D.D.S. for more than twenty five years. At **LaytonDental**, we clearly want to show our dedication to our patient, a patient who is also interested in good sense and good science, and staying in the best possible dental health.

That dedication to the patient dictates our providing a suite of services to restore teeth to their most healthy state, create a management program, and offer information and support designed to facilitate a healthy dental lifestyle.

Thank you for your interest in LaytonDental, and it would be our pleasure to give you any information you need to make the right decision on your dental health.

Restoration

Safe mercury removal, we protect you from exposure to the toxic mercury.

Biocompatible porcelain composite restorations include crowns, inlays and onlays. They are bonded to the tooth, making the tooth strong and beautiful again. The finished tooth looks so natural, you cannot see the restoration in the tooth.

LaytonDental implants are changing the way people live! They are designed to provide a foundation for replacement of missing teeth which look, feel, and function like natural teeth.

Our goal for **Dental Hygiene** is a healthy mouth for all our patients. Recent studies show that some diseases can be brought on through the bacteria in the mouth. Getting and keeping a clean mouth and healthy gums is possible with our microscopic analysis and dental health program.

As part of our dental health program, Layton Dental creates a **management plan** specific to your needs and goals. This program will customize a long-range plan to make your dreams for a more beautiful, healthy smile a reality. See our website for more information and be sure to check out our before and after photos.
